We are required by law to maintain the privacy of individually identifiable patient health information (this information is “protected health information” and is referred to herein as “PHI”). We are also required to provide patients with a Notice of Privacy Practices regarding PHI. We will only use or disclose your PHI as permitted or required by applicable state law. This Notice applies to your PHI in our possession including the medical records.

ARCK understands that your health information is highly personal, and we are committed to safeguarding your privacy. Please read this Notice of Privacy Practices thoroughly. This Notice applies to the delivery of health care by ARCK and its medical providers in the clinic.

Different departments will share medical information about you in order to coordinate specific services, such as lab work, x-rays and prescriptions.

ARCK also will disclose PHI to people or entities outside ARCK, who will be involved in your medical care after you leave ARCK, such as other care providers and family, who will provide services that are part of your care and to coordinate treatment.

ARCK will use and disclose your PHI to inform you of, or recommend possible treatment options or alternatives that will be of interest to you.

ARCK will use and disclose PHI to contact you as a reminder that you have an appointment for treatment or medical care at ARCK. With respect to a group health plan, ARCK may also disclose PHI to a health plan sponsor.

excerpts of your medical records which are necessary for payment of your account. It will also include sharing the necessary information to obtain pre-approval for payment for treatment from your health plan.

The medical information may also be released to independent health care providers who were involved in your treatment so that they may seek payment for caring for you.

For example, your name and address will be used to send you newsletters or general communications. We will also send you information based on your own health concerns. The communication will explain how the product or service relates to your well-being and can improve your health.

Electronic Health Information Technology: ARCK participates in electronic health information technology or HIT. This technology allows a provider or a health plan to make a single request through a health information organization or HIO to obtain electronic records for a specific patient from other HIT participants for purposes of treatment, payment, or health care operations. HIOs are required to use appropriate safeguards to prevent unauthorized uses and disclosures.

You have two options with respect to HIT. First, you may permit authorized individuals to access your electronic health information through an HIO. If you choose this option, you do not have to do anything.

Second, you may restrict access to all of your information through an HIO (except as required by law). If you wish to restrict access, you must submit the required information either online at http://www.KanHIT.org or by completing and mailing a form. This form is available at http://www.KanHIT.org. You cannot restrict access to certain information only; your choice is to permit or restrict access to all of your information.
If you have questions regarding HIT or HIOs, please visit http://www.KanHIT.org for additional information.

If you receive health care services in a state other than Kansas, different rules may apply regarding restrictions on access to your electronic health information. Please communicate directly with your out-of-state health care provider regarding those rules.
